EDUCATION

- **Humber College** Toronto, Ontario
Information Technology Solutions *Pursuing*
- **Rajagiri School of Engineering and Technology** Kerala, India
Bachelors in Electronics and Communication Engineering; GPA: 8.4 *Aug. 2017 – Aug. 2021*

EXPERIENCE

- **Legrand** Canada
Software Quality Engineering Intern *May 2024 - Present*
 - Collaborated with cross-functional teams to identify and resolve 15 critical software bugs, enhancing product stability and performance.
 - Conducted regression testing for 4 major releases, ensuring a 95% defect-free delivery rate to clients.
 - Developed detailed test plans and executed performance testing on new features, increasing system reliability by 20%.
 - Published Device Test Repository, created test templates for device test cases, and worked on physical device testing.
 - Automated testing with Test Complete, reducing manual testing time by 40% and improving overall test efficiency.
- **Prodigy Infotech** India
Software Development Intern *Feb 2024 - Mar 2024*
 - Done 5 projects including developing personal portfolio with React technology
 - Thorough hands-on experience with React, gained expertise in component creation, user interface design, and styling, contributing to the successful completion of multiple projects.
- **Cubet Techno Labs Pvt. Ltd.** Kerala, India
Software Engineer *Aug 2021 - Jul 2023*
 - Spearheaded the design and implementation of the user interface for a progressive web application dedicated to booking football turfs.
 - Developed and maintained React components for the JavaScript-based web application, ensuring a seamless user experience.
 - Led the design and development of features such as booking cancellation and rescheduling, enhancing the application's functionality.
 - Collaborated with QA teams on device test repository creation, physical device testing, and performance improvements.
 - Automated testing with Test Complete, reducing manual testing time by 40% and improving overall test efficiency.

ACHEIVEMENTS

- **Dean's Honour:** Awarded Dean's Honour's consecutively for 2 times from Humber College
- **National Service Scheme Volunteer:** Served as NSS volunteer for 2 years. Conducted social events and participated in competitions

CERTIFICATIONS

- **Devops Fundamentals, Alison:** October 2024
- **Node with react: FullStack Web Development, Udemy:** January 2023 - March 2023
- **React the Complete Guide, Udemy:** May 2022-June 2022
- **Git Started with Github:** November 2022 - November 2023
- **Software Engineer Requirements:** November 2022 - December 2023

PROJECTS

React

- **Temperature Converter:** Developed a Temperature Converter web app using React. Learned about state management, user input handling, and styling.
- **Number Guessing Game:** Created a Number Guessing Game using React. It's a fun and challenging way to practice React state and event handling.
- **Contact Manager:** Launched a Contact Manager app built with React. It provides a sleek solution for organizing contacts with features like adding, editing, and deleting.
- **Sudoku Solver:** Completed the Sudoku Solver project using React and backtracking. This algorithmic challenge was fascinating, resulting in an automated Sudoku puzzle solver.

ASP .NET

- **Restaurant Management App:** A full-featured application for restaurant operations, allowing administrators to manage staff, menus, and salaries. Includes a customer-facing point-of-sale interface for selecting and editing food orders, with integrated payment options. The backend is powered by MSSQL, with a dedicated database handling all restaurant operations efficiently.

HTML, CSS, JavaScript Projects

- **ShareHope:** ShareHope is a donation website allowing users to make donations, search for causes, and manage their accounts. Implemented the website using HTML, CSS, and JavaScript, ensuring an engaging and user-friendly interface.

PROGRAMMING SKILLS

- | | |
|---|---|
| • Programming Languages: Java, JavaScript,C# | Web Technologies: HTML, CSS, XML,React |
| • Database: SQL | Version Control: Git |
| • OOP Principles | Data Structures |
